

USAMA SARFRAZ

Microsoft Dynamics 365 CRM & Power Platform Developer | PL-200 | PL-400

Doha, Qatar | +974 77823018 | usama_sarfraz192@outlook.com | linkedin.com/in/usama-sarfraz-7848a61b8/

PROFESSIONAL SUMMARY

Microsoft Certified Dynamics 365 CRM and Power Platform Developer with 6+ years of IT experience, including 5+ years specialising in Microsoft Dynamics 365 CRM (Customer Engagement / CE) solutions across banking and professional services sectors. Proven expertise in end-to-end Dynamics 365 CRM implementations and v8-to-v9 platform upgrades, C# plugin development, REST API and Dataverse integrations, and full Power Platform delivery — Power Apps (Model-Driven and Canvas Apps), Power Automate, Power Pages, and Power BI. Certified PL-200 and PL-400. Experienced in ALM, managed solution deployment, security model configuration, and client-facing consulting. Delivers scalable, maintainable Dynamics 365 CRM solutions for enterprise organisations in the Gulf and international markets.

CERTIFICATIONS

- **Microsoft Certified: Power Platform Developer Associate (PL-400)** — Microsoft
- **Microsoft Certified: Power Platform Functional Consultant Associate (PL-200)** — Microsoft
- **Microsoft Applied Skills: Create and Manage Model-Driven Apps with Power Apps and Dataverse** — Microsoft
- **Power Automate Beginner to Pro | RPA with Power Automate | Power BI Beginner to Pro | AI in Power BI | Filter Context with DAX | Creating Microsoft Fabric Solutions** — Pragmatic Works

TECHNICAL SKILLS

Dynamics 365 CRM / CE: Dynamics 365 CRM, Dynamics 365 Customer Engagement (CE), Dynamics 365 Sales, Dynamics 365 Customer Service, CRM Upgrades (v8→v9), Model-Driven Apps, Forms, Views, Dashboards, Queues, Teams, Business Units, Security Roles, Business Rules, Business Process Flows (BPF)

Power Platform: Power Apps (Model-Driven Apps, Canvas Apps), Power Automate (Cloud Flows, Approval Flows, Scheduled Flows, Automated Flows), Power Pages (Portals, Liquid Templates, Web Templates, Portal Security), Power BI, Microsoft Dataverse

CRM Customization: C# Plugin Development, Custom Workflow Activities, Custom Actions, Custom APIs, Ribbon Workbench, Web Resources, JavaScript Client-Side Scripting, jQuery, Custom Grids, FetchXML, OData

Integration & APIs: REST APIs, OData, FetchXML, Azure Functions, Azure Logic Apps, Azure HTTP Triggers, KingswaySoft SSIS, SharePoint Integration, Jira Integration, Dow Jones Integration, Banking APIs (Equation, KONG, PRIME)

ALM & Solution Management: Managed Solutions, Unmanaged Solutions, Solution Layering, Environment Strategy (DEV / QA / PROD), Azure DevOps, Solution Packaging, Deployment

Development: C#, .NET Framework, JavaScript, jQuery, HTML, CSS, Bootstrap

Database & Data: SQL Server, T-SQL, Stored Procedures, SSIS (KingswaySoft), Data Migration, Data Integration, Power Query

Reporting & Analytics: SSRS Reports (Single & Multi-Page), Power BI Dashboards & Reports, CRM Dashboards, Reconciliation Reports

Tools & Methodologies: XrmToolBox, Postman, Visual Studio, Azure DevOps, Agile / Scrum, Unit Testing, UAT Support, UI Automation Testing (C#)

PROFESSIONAL EXPERIENCE

Commercial Bank of Qatar | Al Wakra, Qatar

May 2025 – May 2026

Microsoft Dynamics 365 CRM Developer

- **Platform Upgrade Leadership:** Led the end-to-end migration of Dynamics 365 CRM from v8 to v9 for one of Qatar's largest commercial banks, encompassing solution re-architecture, C# plugin refactoring, custom workflow conversion, and process re-engineering — delivered on schedule with zero unplanned production downtime.
- **Plugin & Code Refactoring:** Converted and modernised legacy C# plugin and custom workflow activity code to align with the Dynamics 365 v9 SDK and Customer Engagement (CE) architecture, eliminating deprecated API calls and materially improving solution performance, stability, and long-term maintainability.
- **Core Banking API Integration:** Architected and optimised REST API integrations between Dynamics 365 CRM and three core banking platforms — Equation, KONG, and PRIME — resolving critical connectivity defects and ensuring reliable, real-time data synchronisation across business-critical financial operations.
- **ALM & Solution Management:** Managed managed and unmanaged solution packaging, solution layering, and environment promotion across DEV, QA, and PROD environments using Azure DevOps, ensuring consistent, auditable, and repeatable deployment processes throughout the upgrade.
- **Defect Resolution & Quality Assurance:** Diagnosed and resolved complex plugin, workflow, and API defects throughout the full upgrade lifecycle, materially reducing the post-deployment incident rate and accelerating UAT sign-off cycles in close collaboration with Business Analysts, QA Engineers, and Technical Leads.
- **Database Engineering & Reporting:** Designed and implemented T-SQL stored procedures and custom SQL dashboards to surface real-time Dynamics 365 CRM configuration and reconciliation data, eliminating manual reporting overhead for banking operations teams.
- **Ongoing CRM Support:** Delivered KingswaySoft SSIS data integration enhancements and continued Dynamics 365 CRM support post-migration, maintaining system stability and resolving live incidents to ensure uninterrupted banking operations.

Scaleable Solutions (Microsoft Dynamics 365 Partner) | Islamabad, Pakistan

Jul 2021 – Apr 2025

Microsoft Dynamics 365 CRM Consultant

- **CRM Solution Design & Implementation:** Designed and delivered end-to-end Dynamics 365 CRM solutions across Dynamics 365 Sales and Customer Service modules for 4+ enterprise clients in financial services, NGO, and professional services sectors, translating complex business requirements into scalable, maintainable CRM architectures aligned with Microsoft best practices.
- **Power Platform Development:** Built and deployed Model-Driven Apps, Canvas Apps, and Power Automate cloud flows (approval, scheduled, and event-driven) integrated with Dataverse, enabling end-to-end process automation and reducing manual workloads across client organisations.
- **Power Pages Portal Development:** Architected and deployed custom Power Pages portals — including case management, knowledge base, and real-time customer interaction modules — with full Liquid template customisation, portal security configuration, and performance optimisation for B2B and B2C client engagements.
- **CRM Customization & Configuration:** Customised and configured Dynamics 365 CRM components — entities, forms, views, dashboards, Business Process Flows, business rules, security roles, business units, teams, and queues — to precisely reflect client business processes and governance requirements.
- **Plugin, API & Integration Development:** Developed C# plugins, custom workflow activities, custom actions, custom APIs, and Azure Functions integrations, connecting Dynamics 365 CRM with SharePoint, Jira, Dow Jones, and additional third-party platforms via REST APIs, OData, and FetchXML.
- **Third-Party & Banking System Integration:** Integrated Dynamics 365 CRM with Dow Jones for automated customer compliance verification, Jira for issue tracking synchronisation, and SharePoint for document automation via Power Automate — materially reducing manual compliance and data entry effort across client operations.
- **Data Migration & ETL:** Planned and executed data migration initiatives using KingswaySoft SSIS, designing robust ETL pipelines to ensure data integrity, completeness, and quality across Dynamics 365 CRM implementations and upgrade projects.
- **Reporting & Analytics:** Delivered Power BI dashboards and multi-page SSRS reports integrated with Dynamics 365 CRM, providing sales pipeline visibility and opportunity analytics that improved leadership decision-making across client accounts.
- **ALM & Environment Management:** Managed managed and unmanaged solution packages, solution layering, and multi-environment deployment (DEV / QA / PROD) using Azure DevOps, maintaining code versioning and supporting reliable application lifecycle management across concurrent client projects.

- **Team Leadership & Client Consulting:** Led and mentored a team of Dynamics 365 CRM consultants across multiple concurrent projects, conducting code reviews, providing technical guidance, and delivering end-user training sessions to maximise client adoption of Dynamics 365 CRM and Power Platform capabilities.

Hassan Solutions | Islamabad, Pakistan

Feb 2020 – May 2021

.NET Developer

- **Application Development:** Developed and maintained .NET and C# applications and REST API integrations, establishing a strong technical foundation in C# development that directly informed subsequent Dynamics 365 CRM plugin and customisation engineering.
- **Quality & Agile Delivery:** Participated in code reviews, debugging sessions, and Agile delivery cycles, contributing to on-time delivery of client-facing features while adhering to coding standards and quality best practices.

KEY PROJECTS

Commercial Bank of Qatar — Dynamics 365 CRM v8 to v9 Platform Migration

- Orchestrated full-lifecycle Dynamics 365 CRM platform migration: solution re-architecture, C# plugin refactoring, managed solution packaging, and zero-downtime environment promotion through DEV, QA, and PROD.
- Integrated Dynamics 365 CRM with Equation, KONG, and PRIME core banking APIs, restoring and stabilising critical data flows between CRM and the bank's core financial systems.
- Engineered T-SQL stored procedures and reconciliation dashboards for real-time CRM configuration monitoring; delivered ongoing KingswaySoft SSIS enhancements for continuous data integration.
- Provided UAT support, authored test documentation, and collaborated cross-functionally with Business Analysts, QA, and Technical Leads throughout all upgrade phases.

EQS Group — Dynamics 365 CRM Full Implementation

- Delivered a comprehensive Dynamics 365 CRM implementation including JavaScript client-side customisations, C# plugins, custom workflow activities, custom actions, and Azure Functions integrations.
- Integrated Dynamics 365 CRM with Dow Jones (automated compliance verification), Jira (issue management), and SharePoint (document automation) via REST APIs, OData, and Power Automate flows.
- Designed and deployed a custom Power Pages portal featuring case management, a searchable knowledge base, and real-time customer interaction capabilities, improving client B2B engagement.
- Implemented CRM dashboards, SSRS reports, and a dynamic product selector, enhancing user productivity and improving sales data visibility across the organisation.

Paritta Group (Children International) — Process Automation & ALM

- Developed C# plugins, Azure Functions, and Azure Webhooks to automate core Dynamics 365 CRM business processes, reducing manual workload and improving system reliability for an international NGO.
- Delivered unit testing and C#-based UI automation testing; managed all code and task lifecycle via Azure DevOps, supporting disciplined application lifecycle management.

Blue Meridian — Power BI & SSRS Reporting Integration

- Designed end-to-end Power BI dashboards for Leads and Opportunities reporting, published to Dynamics 365 CRM service, delivering real-time sales pipeline visibility for leadership.
- Built single and multi-page SSRS reports integrated with Dynamics 365 CRM, replacing manual data extraction and providing scalable, maintainable reporting infrastructure.
